Applicant: James J. Estrada and John P. Felleman Attorney's Docket No.: 07844-213001 / P191

Serial No.: 09/922,345 Filed: August 3, 2001

Page: 2 of 11

## Amendments to the Specification:

Please replace the paragraph beginning at page 3, line 15, with the following amended paragraph:

Aspects of the invention can include one or more of the following features. The first color value and the second color value can have a first and second luminocity value, respectively, and wherein a luminocity value of the trap color can be selected from one of the first and second luminocity values corresponding to a darker of the first and second color value. The first and second color values can be associated with a device dependent statespace. The method can include, prior to generating a trap color value, transforming the first and the second color values from the device dependent space to a device independent space.
